

ATTN: Horses traveling from Texas to Traverse City Horse Shows

Due to recent screwworm (NWS) infestation in Texas, every horse coming from the state of Texas will need to read and abide by the following protocol to travel to and compete in Michigan at Flintfields Horse Park:

- Horses must travel with an interstate health certificate (CVI) issued within 72 hours prior to entering the state of Michigan.
- A signed statement from an accredited veterinarian (AV) attesting: "I have inspected the animals included in this shipment and have found them free from clinical signs of NWS myiasis."
- Arrival exam by the show veterinarians (East-West Equine Sports Medicine). Horses may not be offloaded until a veterinarian is present.

Any horses demonstrating clinical signs of NWS infestation are prohibited from entering Flintfields Horse Park.

****All arrivals must contact Dr. Brooke Pearson (603-759-7543) or Sara Holtz (208-615-0226) to schedule an arrival appointment for inspection prior to being allowed to enter Flintfields Horse Park. Arrivals must be scheduled during horse show hours (8am - 5pm), hours outside of this time, or special circumstances, must be arranged in reasonable time before arrival.****
